MISSION: To provide to students, families, educators, school districts, and agencies high quality, cost effective, value-added, and sustainable education, professional development, technical assistance, and resources that are grounded in our core values and appropriate research-based content and best-practices.

February 5, 2016

Dr. David R. Heimbecker of South Coast Educational Collaborative was informed by the Department of Elementary and Secondary Education of an upcoming Collaborative Program Review that will be taking place this school year. As part of this Collaborative Program Review, Department staff will visit South Coast Educational Collaborative during the week of March 14, 2016. Such visits are routinely conducted by the Department to satisfy federal and state requirements for the periodic review of specific education programs and services in schools throughout the Commonwealth. The Department is reviewing several programs during a single visit in order to use Department and school staff's time most efficiently and to encourage strong connections among the programs.

The Department's Collaborative Program Review will address the following programs: **North School in Seekonk (Elementary, Middle School, North High School, and ACE Elementary), Gallishaw Building (Middle School and High School), Gallishaw High School in Swansea, Palmer River Elementary School, Rehoboth (Early Childhood and Elementary), Freetown Elementary, Somerset Middle School (SEEC Middle and SCMAS), and Bridge High School at Dighton-Rehoboth Regional High School.** After reviewing collaborative procedures for these program(s), a Department team will make its onsite visit, during which it will review individual student records, interview administrators, teachers and paraprofessional staff, survey parents and observe instructional spaces. After the onsite visit, it will prepare a report for the executive director and board of directors, with detailed findings for each program.

Using a scale of ratings ranging from "Commendable" to "Not Implemented," the report will rate the implementation of each requirement reviewed by the Department. Where requirements are found not implemented or only partially implemented, the collaborative must propose to the Department corrective action to bring those areas into compliance with statutes and regulations. Collaborative programs are encouraged to incorporate the corrective action into their district and school improvement plans and professional development plan. The collaborative will be provided with technical assistance from the Department in developing a corrective action plan. Both the Department's report and the corrective action plan are public information and will be available to the public upon request. Program Review Final Reports are also available on the Department's Internet website at <http://www.doe.mass.edu/pqa/review/cpr/reports/>.

Any member of the public may request to be interviewed by telephone by a member of the Department's visiting team. Those wishing to be interviewed should call the executive director's office at 508-379-1180 no later than February 26, 2016 to leave their name and phone number, or they may call the Department of Elementary and Secondary Education at 781-338- 3723 (Christine Romancewicz). A member of the visiting team will contact each person desiring an interview within two weeks after the completion of the onsite visit. If an individual is not comfortable communicating in English or requires some other accommodation, the Department will make arrangements to communicate appropriately with the individual.
